

BATTLESTAR GALACTICA

The last members of the human race... fleeing through space in search of a planet called Earth... pursued by deadly metallic creatures called Cylons bent on destroying mankind.

This is the backdrop for the spectacular Battlestar Galactica movies. Never has television seen such lavishly produced, big budgeted sci-fi action thrillers. The screen explodes with some of the most incredible special effects ever put on film.

BATTLESTAR GALACTICA is your ticket to the stars. Lorne Greene as Commander Adama and fighter pilots Starbuck and Apollo (Dirk Benedict and Richard Harch) topline the cast.

Plus a super lineup of guest stars such as Fred Astaire, Lloyd Bridges, Ray Milland, Jane Seymour, Ed Begley, Jr., Larry Manetti, Britt Ekland and many others is unveiled as Galactica careens through space encountering new planets and dazzling adventures.
